Other

- Israeli settlers infuriated with Netanyahu. After uniting behind the Prime Minister during the last elections, the Israeli settler community wrote a sharp letter to Likud members against Netanyahu: "The Prime Minister ordered to stop all construction and planning tenders, bringing about the evacuation and demolition of buildings." In a letter that was sent today by the Yesha Council to Likud members, they claimed that Netanyahu ordered a halt to construction over the green line. They called on them to pressure the Prime Minister to resume

settlement construction. "Recently, the settlements have been going through a difficult period," they wrote. "The Prime Minister ordered that they stop the planning and construction tenders. This move strangles the settlements. We feel that there is a policy to descend the flag over the settlements and to tighten the grip around the Jewish communities in Judea and Samaria and in Jerusalem over the green line." "On the eve of elections, we listened to the Prime Minister who stood on the podium and called to support the Likud, stressing that the Likud program is to build all over the State of Israel," they noted. "Is stopping planning procedures part of building in Judea and Samaria? Does choking the settlements express love for the State of Israel?" "We turn to you Likud members to take back the real seat of the present government and to demand that the Prime Minister keep his promise to end the moratorium on building in the settlements and construction plans," they wrote. "The people chose the right and we have to take care to ensure that the policies in the territories will also be right wing." ([Jerusalem Online](#) 20 July 2015)
