- An Israeli military court extended the detention of two injured Palestinians for an additional 11 days. The detentions of [Haitham Hassan Issa Jaradat, 15](#), from the Hebron Governorate town of Sair and Laith Muamer Daraghma, 18, from the northern West Bank city of Tubas, were extended. The IOA had raided and searched the homes of Abu Zant and Ghanem before detaining them. Clashes erupted in the area following the raids and detentions, as the IOA fired stun grenades and tear gas bombs at Palestinians. (Maannews 14 September 2017)

The IOA also raided and searched several houses in the refugee camp, causing clashes to erupt that continued until the morning hours during which Israeli soldiers, opened live ammunition, rubber-coated steel bullets, tear gas, and stun grenades at Palestinian youths. ### **Israeli Settler Violence**

- Israeli Settlers residing in the outpost that was recently established on lands of Al Himmah area in the northern Jordan valleys have chased Palestinian sheep herders in the area in an attempt to prevent them from coming back again to the area. (Wafa 14 September 2017)

### **Other**

- Representatives of the Israeli military and the Civil Administration (CA) came to the Palestinian community of Khan al-Ahmar, which lies east of Jerusalem, and notified residents that their only remaining option is to move to al-Jabal West – a “relocation” site allocated to the community without consulting them next to the Adu Dis garbage dump. The community’s lawyer, Att. Shlomo Lecker, had expressly informed the Civil Administration officer in charge that he is not permitted to meet with his clients without his consent and presence – yet the CA went ahead regardless. This came ahead of a High Court hearing scheduled for Monday, 25 Sept., on the community’s petitions against the state’s plan to demolish all its structures and on a petition by settlements in the area of Ma’ale Adumim to demolish the Khan al-Ahmar school. The CA's actions appear to be paving the way for the state to claim that it is acting in good will and has consulted the community. Demolition of an entire community in the Occupied Territories is virtually unprecedented since 1967. Under the Fourth Geneva Convention, which Israel is obliged to respect in all its actions in the West Bank, this amounts to forcible transfer of protected persons, which constitutes a war crime.
