Confiscation & Razing of lands

- The Israeli Occupation Army (IOA) have seized an agricultural caravan belonging to a farmer from village of Khirbet Jubara, to the south of the occupied West Bank city of Tulkarem. The IOA escorted a large crane to a plot of land belonging to the Dasouki family, and seized the caravan. The land owner had just finished reclaiming their plot of land, which occupied a dunam and 800 square meters, and had a caravan placed in it, for agricultural purposes. The targeted land is located at the entrance of the village, next a house demolished by the IOA, earlier in April, under the pretext that it was built without a permit. (IMEMC 10 June 2019)
- The Israeli occupation authorities have decided to illegally confiscate at least twenty dunams of privately-owned Palestinian lands, in northern West Bank, to pave a new road for settlements. The lands and the newly planned segregated road are east of Nablus and are owned by Palestinian farmers from Deir al-Hatab and Azmout villages, and will be used to pave roads leading to Elon Moreh settlement. More than 400 Palestinians will be impacted by the planned road, which could also lead to more illegal confiscations of lands, especially since Israel implements buffer zones and other security measures to segregate such roads.
