Home Demolition & Demolition threats

- Dozens of Israeli Occupation Army (IOA) and police officers invaded Wadi al-Hummus neighborhood, in Sur Baher town, in occupied East Jerusalem, and took measurements of 16 apartment buildings, in preparation for demolishing them. The families have filed appeals with the Israeli High Court in an attempt to save the sixteen residential building of more than 100 apartments. The Israeli "justification" to the destruction of their buildings is "due to their proximity" to a section of illegal Annexation Wall, which was built on Palestinian lands owned by the families in the neighborhood. The families are awaiting the ruling of the High Court, especially since they petitioned it to hold an extended hearing to listen to their cases, and to investigate the documents they have submitted. However, the IOA invaded the neighborhood, and they not only took measurements of the 16 apartment buildings, but also of many roads and surrounding buildings. The families were given until the 18th of July to demolish the buildings, or else, the City Council will commence with the destruction and bill them for the costs in addition to heavy fines and fees. It is worth mentioning that, two weeks ago, the Israeli High Court approved the demolition of the sixteen apartment buildings, and one

week later, the army ordered the families to commence the demolition and finish it within three weeks. Most of the apartment buildings Israel intends to demolish are in Area A of the occupied West Bank, which means that they are under the supervision and administrative control of the Palestinian Authority, and were licensed by it. However, Israel is claiming the buildings were constructed without permits for the City Council in occupied Jerusalem, and cited "security considerations" for their destruction. It is worth mentioning that, despite the Israel allegations, the real reason for demolishing the buildings is because Israel prevents the Palestinians from building within 250 meters from the illegal Annexation Wall, which was built in the first place on Palestinian lands across the West Bank, including the areas surrounding occupied East Jerusalem. (IMEMC 27 June 2019)

The IOA stormed Za'atara area and seized three barracks used to raise livestock and water pump generators belonging to Nahar Muhammad Ar Rashayda, FaraH Hussein Ar Rashayda and Khaled Ahmad Ar Rashayda. (WAFA 27 June 2019)
- Israeli occupation authorities handed notices today to several Palestinian households in Qalandia refugee camp, north of Jerusalem, ordering demolition of their homes on the pretext of construction without Israeli permission. The land where the homes slated for demolition are located in Area C of the occupied West Bank, where planning and construction are entirely controlled by the so-called Israeli Civil Administration. (WAFA 27 June 2019)
- The Israeli occupation authorities (IOA) distributed a number of demolition orders against a number of residential and commercial establishments and "Barracks" in the community of Kafr Aqeb and Al Jabal area in northern Jerusalem. Among the notified Palestinian owners, the following were identified: Youssef Rashid Nabhan, Mahmoud Rashid Nabhan, Adel Bouailat and Abu Rami al-Kasbah, all

of them residents of Qalandia camp, north of the holy city. (WAFA 27 June 2019)
