## Brutality of the Israeli Occupation Army

- The Palestinian Ministry of Health has reported that 11 Palestinian protesters were wounded, including one who was shot in the chest in a protest east of Rafah, in southern Gaza. Additionally, The Israeli Occupation Army (IOA) fired two shells at a building in Juhr ad-Deek area southeast of Gaza City, causing damage to the building. Two Palestinians were moderately injured by Israeli gunfire Friday at protests on the eastern border of the Gaza Strip. The protests were smaller than the usual weekly protests have been, as Palestinians in Gaza gear up for major protests on Saturday to commemorate the 43<sup>rd</sup> Palestinian Land Day. Friday's protests took place in four locations along the eastern border of Gaza, with Israeli tanks and troops lined up on the other side of the border. The troops and tanks have been amassing there since Monday, apparently planning for a land invasion of Gaza to accompany the airstrikes that have been ongoing all week, and have destroyed at least thirty buildings, including high rise apartment and office buildings. According to the Palestinian Ministry of Health, two Palestinians were moderately wounded in their legs with live gunfire from Israeli snipers. The injuries took place at the protest east of Jabaliya, in the northern part of the West Bank. (IMEMC 29 March 2019)
- The Israeli Occupation Army (IOA) shot eight young Palestinian men with live fire, and caused many to suffer the effects of teargas inhalation, in northern and eastern Gaza Strip. The IOA shot five young men with live fire, after the army fired dozens of rounds at random, targeting protesters on Palestinian lands, east of Jabalia, in northern Gaza. Many others suffered the effects of teargas inhalation and received the needed treatment by paramedics. In addition, the IOA shot three Palestinians with live fire, and caused several others to suffer the effects of teargas inhalation, east of Gaza city. (IMEMC 29 March 2019)

## Israeli Settler Violence

- A group of Israeli settlers cut dozens of Palestinian olive trees in Burin village, south of the northern West Bank city of Nablus. The settlers came from Yitzhar settlement, which was built on privately-owned Palestinian lands. The settlers cut dozens of olive trees in the attacked orchards, in the al-Mayadeen area, near the local Civil Defense Center. The trees were planted more than eighty years ago, and are owned by a local villager, identified as Majed Raja Zibin. (IMEMC 29 March 2019)
