Brutality of the Israeli Occupation Army

- The Israeli occupation Army (IOA) closed the water pipes which supply Palestinian residents in the village of Bardale, in the northern Jordan Valley, east of the occupied West Bank. The IOA stormed the village in the early morning and closed a number of pipes which supply the area, without mentioning any reasons. (IMEMC 20 September 2019)

Israeli Settler Violence

- At least one farmer was injured as Israeli settlers attacked several Palestinian farmers working in a farm near the village of Beitin, northeast of Ramallah in the West Bank. About 25 Jewish settlers protected by an Israeli army force broke into the farm, physically assaulted some of the farmers and injured one of them in the head. The settlers also attacked vehicles belonging to local Palestinian citizens and smashed their windshields. (Wafa 20 September 2019)
