Violations of the Israeli occupation Army

- Israeli security services in the internationally-recognized occupied Palestinian East Jerusalem, summoned, a representative of the Fatah party, Shadi Matour, for interrogation. Matour was summoned to the Muskobiya interrogation and detention center, also known as the Russian compound, shortly after he and other local Palestinian activists were banned from entering the Al-Aqsa mosque for a period of six months. (IMEMC 10 July 2020)
- The Israeli Occupation Army (IOA) shot a Palestinian man near the main intersection of Kifl Hares town, north of Salfit in central West Bank and injured a Palestinian teen. The IOA shot Ibrahim Mustafa Abu Yacoub, 33, with a live round in his neck, causing life-threatening wounds. The IOA also shot and injured a Palestinian teen man with a live round in his thigh. There were no protests when the IOA opened fire at the Palestinians who were just walking near the main entrance of the town, which was blockaded by the army four days ago, and the IOA have been preventing the Palestinians from entering or leaving it. Abu Ya'coub was just walking with a few of his friends when the IOA targeted them with live fire without any cause or justification. The slain Palestinian, and the wounded teen, Mohammad Abdul-Salam Abu Ya'coub, 17, were just walking in the area when the IOA directly targeted them with live fire. The IOA were on the military tower which was installed at the entrance of the town. A vehicle of colonialist Israeli settlers was in the area, and that the settlers also opened fire at the Palestinians. (IMEMC 10 July 2020)
- Israeli occupation army (IOA) dispersed dozens of non-violent protesters holding a non-violent protest against the Israeli colonial settlement construction, outside the village of Asira ash-Shamaliya, north of Nablus city in the occupied West Bank. The IOA fired teargas and rubber-coated rounds at Palestinians and international activists while they were demonstrating against the occupation authorities' plan to confiscate a Palestinian-owned land plot near the village, where Israeli settlers recently set up two caravans apparently in a prelude to establish a new settlement outpost. At least two protesters were injured, including the village's

mayor, Hazem Yasin, who sustained fractures in the hand after being hit by a teargas canister. (Wafa 10 July 2020)

- The Israeli Occupation Army (IOA) detained two officials of the Palestinian political movement Hamas, during raids in the occupied West Bank. The IOA raided properties in Ramallah and Al-Bireh. Clashes erupted between dozens of Palestinian youths and the troops who arrested Jamal Al-Tawil from Al-Bireh, and Hussein Abu Kweik from Beitunia in Ramallah. The IOA are said to have used live ammunition and rubber bullets, as well as sound bombs and tear gas against the demonstrators. (PC 10 July 2020)

Israeli Settler Violence

- Several armed Israeli settlers vandalized twelve Palestinian vehicles, south of Nablus city, in northern West Bank. The settlers invaded the al-Lubban ash-Sharqiya village in southern Nablus, and slashed the wheels of twelve parked cars. Israeli assailants also sprayed racist graffiti on the vehicles, and walls in the village. (IMEMC 10 July 2020)

Home Demolition & Demolition threats

- The Israeli occupation authorities in the southern West Bank Governorate of Bethlehem, ordered a halt to construction works of two Palestinian-owned homes in the Al-Khader village, south of Bethlehem city. The two homes are owned by Palestinian civilians, Nader Salah and Mohammad Salah, along with their family members. Israeli troops invaded the Al-Khader village and prevented three cement mixers and a cement pumping vehicle, from delivering cement to the under-construction home of Mohammad Salah. The two homes are located in the Om Rokba neighborhood of Al-Khader village, which has recently seen increase in the demolition of Palestinian homes as well as blocking the construction of homes. The pretext used for the stop construction order, was the lack of Israeli authorities' permission to build in the area. (IMEMC 10 July 2020)
