## Violations of the Israeli occupation Army

- Dozens of Palestinians were injured, after Israeli forces suppressed a peaceful demonstration, in the southern occupied West Bank city of Hebron. The army fired teargas at the non-violent protesters, who demonstrated in solidarity with Palestinian prisoners who are ongoing with their hunger strikes, causing dozens to suffer the effects of teargas inhalation. The army also fired rubber-coated steel rounds at demonstrators who threw stones in response to the soldiers' attack. Protestors repeated slogans demanding the release of the hunger-striking administrative detainees held by the occupation authorities with no charges or trial. At this time seven Palestinian administrative detainees are maintaining their hunger strikes in rejection of their unjust detention without charges or trail. Kayed al-Fasfous, who embarked on his hunger strike 102 days ago, is at risk of death at any given moment, however is determined to continue the strike for his freedom. Miqdad al-Qawasma has been on hunger strike for 95 days, Ala' al-A'raj; 78 days, Hisham Abu Hawwash; 69 days, Shadi Abu Aker; 61 days, Ayyad al-Hreimi; 32 days, and Rafat Abu Rabea'; 8 days. - Israeli soldiers injured many Palestinians during protests that erupted south of Jenin, in the northern part of the occupied West Bank. The soldiers installed two sudden military roadblocks at the Anza village junction and Ejja village junction, before stopping and searching dozens of cars, and interrogated many Palestinians, leading to protests. Many Palestinians protested the roadblocks and the extended delays before the soldiers fired gas bombs and concussion grenades at them. Many Palestinians suffered the effects of tear gas inhalation, in addition to cuts and bruises, before receiving the needed treatment. (IMEMC 24 October 2021)

## Israeli Settler Violence

- Groups of Jewish settlers desecrated the Aqsa Mosque in Occupied Jerusalem. According to local sources, dozens of settlers entered the

Mosque in groups through al-Maghariba Gate and toured its courtyards under police protection. A number of settlers provocatively performed prayers or rituals during their tours at the Islamic holy site. The Israeli police close al-Maghariba Gate, which is used by Jews to enter the Mosque, at 10:30 am after the settlers complete their morning tours at the holy site. Later in the afternoon, the same gate is reopened for evening tours by settlers. During the presence of settlers inside the Mosque compound, entry restrictions are imposed on Muslim worshipers at the entrances leading to the Mosque and their IDs are seized until they leave the holy place. ### **Home Demolition & Demolition threats**

- The Israeli occupation forces (IOF) delivered stop-work orders against two homes in at-Tuwani village in Masafer Yatta, south of Hebron province. Al-Harini received military notices ordering them to stop building homes belonging to them in the village. The two houses are located within the zoning plan of the village, but the Israeli army keeps targeting the local residents and their property with the aim of driving them out of the area. ### **Expansion of Israeli settlements**

- Israeli occupation authorities issued today tenders for the construction of around 1,355 new settler homes in existing illegal West Bank settlements. Israeli construction Minister Ze'ev Elkin announced the advancement of the construction of more than 1,300 homes in West Bank settlements. Over 3,000 settlement homes will be advanced this week in occupied Palestinian territories. (Wafa 24 October 2021)
