## Violations of the Israeli occupation Army

## Israeli Settler Violence

- A group of illegal Israeli colonizers invaded, Friday, Khirbat al-Farisiyya village, in the Northern Plains of the Jordan Valley in the occupied West Bank, before occupying a Palestinian water spring, and started constructing a collection pool near it. Local activist Aref Daraghma said the colonizers occupied a spring in the Khallet Khader area, in the al-Farisiyya village, and prevented the Palestinians from entering the area. He added that the colonizers also started preparation work for a water collection pool near the spring, to occupy it and the surrounding area to establish a new colonialist outpost on the stolen lands. Daraghma also said that the colonizers invaded and occupied structures, owned by Raddad Daraghma, near the water spring, and brought digging and construction equipment. Earlier this year, the colonizers occupied another spring in the Ein al-Hilwa area in the Northern Plains and started constructing a park after preventing the Palestinians from entering the

area. The spring is the main source of water for dozens of Palestinian families in the area. (IMEMC 10 December 2021)

- Israeli settlers vandalized Palestinian vehicles in the East Jerusalem neighborhood of Sheikh Jarrah. A group of armed settlers attacked five Palestinian-owned vehicles in the neighborhood, smashing their windshields. The neighborhood has become a scene of massive protests against Israel's settler-colonialism in the occupied territories since the Israeli occupation authorities decided to forcibly expel dozens of families from their houses in favor of colonial settler groups.
