## Violations of the Israeli occupation Army

- Israeli police forces broke into several Palestinian neighborhoods in Occupied Jerusalem on Friday night. At least one young man was detained during the raids that focused on Issawiya town. His family home was violently stormed and searched before being taken to an Israeli detention center. Israeli police forces were also deployed in large numbers in several neighborhoods of Silwan town. The Israeli army often carries out detention raids against Palestinians in the West Bank and Occupied Jerusalem, claiming to arrest wanted Palestinians. (PALINFO 11 December 2021)

## Israeli Settler Violence

- Illegal Israeli colonizers cut, at least 600 olive and almond trees owned by Palestinians in Deir Shafar village, west of the northern West Bank city of Nablus. the colonizers invaded farmlands in the al-Harayeq area west of Deir Sharaf, before cutting at least five hundred olive and almond trees. the lands are close to the illegal Shavei Shomron colony, which was built on stolen Palestinian lands. The Palestinians managed to rehabilitate their lands and prepare them from planting five years ago, after being denied access to them, and planted them with olive and almond trees. The invaded lands are about 68 Dunams (16.80 Acres) and are owned by the families of Awad Abu Safad, Ghazi Antar, Abdul-Rahim Suleiman, and Nouredin Suleiman. (IMEMC 1 December 2021)
- A group of Israeli colonizers, attacked many cars and homes, evening, in Madama village, south of the northern West Bank city of Nablus. The colonizers came from the illegal Yitzhar colony and added that colonizers hurled stones at many Palestinian cars on the nearby bypass road, causing damage to many cars. The colonizers also attacked homes in the southern area of the village, causing damage. Many Palestinians protested the attack and scuffled with the invading colonizers before some colonizers fired many live rounds and withdrew from the village. (IMEMC 1 December 2021)

- A group of Jewish settlers took over a water spring in Khirbet al-Farisiya area in the northern Jordan Valley. The settlers started the digging works in the vicinity of Khaled al-Khader spring and constructed a pool in the area as a means to seize the site. The settlers have been carrying out restoration works in and around water springs in the West Bank as a prelude to confiscate them and deny Palestinians, including dozens of shepherd herders and hikers, access to them.
