## Violations of the Israeli Occupation Army

- Israeli soldiers opened fire with tear gas canisters toward the Palestinian protestors, injuring dozens of protestors in the northern West Bank village of Kufur Qaddoum, east of Qalqilia. Dozens of Palestinian civilians suffered the toxic effects of tear gas inhalation, during the army's suppression of the non-violent procession. (IMEMC 25 March 2022)
- Israeli soldiers attacked the weekly procession against the illegal colonies near Beita town, south of Nablus, in the northern part of the occupied West Bank. The army shot and injured a Palestinian photo-journalist with a rubber-coated steel round in the leg, while several demonstrators suffered inhalation injuries as a result of the tear gas fired by the army, in an attempt to deter the protestors from protesting. (IMEMC 25 March 2022)
- Israeli police blocked off a number of traffic arteries in the occupied city of East Jerusalem to make room for a settler marathon. The police closed dozens of roads in Jerusalem, starting from the Sheikh Jarrah neighborhood and the French Hill colonial settlement, north of the city, to the Jerusalem-Hebron Road, south of the city, including roads in the Musrara neighborhood, the Jaffa Gate, the New Gate and the Jaffa Road, bringing traffic to a halt for the race duration. Heavily-armed police officers deployed in roads close to the race marathon stopped Palestinian commuters in the city and inspected their identity cards purportedly to secure the event. The event, held in its 11<sup>th</sup> edition, was held as thousands of Palestinians descended on Jerusalem's Al-Aqsa Mosque compound for Friday prayers. Palestinians assert that the marathon, which is backed by Israeli authorities, illegally passes through occupied East Jerusalem and serves to strengthen Israel's grip on occupied Palestinian territory. ## Israeli Settler Violence

- Jewish settlers slashed the tires of 20 Palestinian vehicles in Sheikh Jarrah in Occupied Jerusalem. (PALINFO 25 March 2022)

## Expansion of Israeli settlements

- The Israeli National Planning and Building Committee in Occupied Jerusalem has approved the construction of 1,200 housing units in the Kiryat Yuval settlement neighborhood illegally built in the holy city. The plan includes the demolition of five 8-storey buildings and the construction of 1,200 housing units on a total area of 30,000 square meters. A Jewish synagogue, a school, 11 kindergartens and other buildings will all be built in the area. Israeli authorities earlier approved the construction of two major Jewish-only towns in the Negev as part of a settlement expansion plan in proximity to areas where Palestinian citizens of Israel live. The plan would establish a town for ultra-orthodox Jews and a town for secularists. (IMEMC 25 March 2022)
