Violations of the Israeli Occupation Army

- The Israeli soldiers injured several Palestinians in Husan village, west of Bethlehem, south of occupied Jerusalem in the West Bank. Several army jeeps invaded the al-Mteina area at the eastern entrance of Husan, leading to protests. The soldiers fired many rubber-coated steel bullets, gas bombs, and concussion grenades, causing many Palestinians to suffer the effects of tear gas inhalation. The soldiers also closed streets leading to Husan, stopped and searched many cars, and interrogated the Palestinians while inspecting their ID cards. (IMEMC 8 June 2022)
- The Israeli navy and the army attacked Palestinian fishermen and farmers in the southern parts of the besieged Gaza Strip. The Israeli navy ships fired many live rounds, gas bombs, and flares at Palestinian fishing boats near the shores of Rafah and Khan Younis. The navy chased the Palestinian boats to the shore, denying them the right to fish to provide for their families. Also, Israeli soldiers fired many live rounds and gas bombs at Palestinian agricultural lands near the perimeter fence east of Khuza'a town, east of Khan Younis, forcing the Palestinians to leave. The attacks did not lead to injuries. (IMEMC 8 June 2022)
- Israeli occupation forces (IOF) entered the northeastern Gaza Strip areas amid heavy firing of live bullets and sound bombs. The IOF soldiers escorted huge bulldozers along with other military equipment and stormed the eastern outskirts of Beit Hanun city to the north of the besieged enclave. The IOF razes Palestinian lands and damages citizens' property in the north and east of the Gaza Strip on a semi-daily basis. (PALINFO 8 June 2022)

Israeli Settler Violence

- A group of illegal Israeli colonizers installed an outpost on Palestinian lands near the northern West Bank city of Nablus, just hours after the army removed it. The colonizers gathered, shortly after midnight, in the al-Jneina area near the al-Lubban ash-Sharqiya village, south of Nablus, and installed the new illegal outpost on stolen Palestinian lands. Israeli Colonizers reinstated the outpost in the same area where the army evacuated it. The outpost is in an essential location just half way near the main Nablus-Ramallah Road, used by thousands of Palestinians in their daily commute. (IMEMC 8 June 2022)
- Israeli colonizers ambushed and assaulted a Palestinian man and his son after forcing them out of their car in Silwan town in occupied Jerusalem, causing serious wounds. The man and his son were driving and passed a group of about ten Israeli colonizers in Silwan. Riyadh Somrain (the father) stated that they drove a short distance to find another group of about ten colonizers before both groups attacked their car, forcing them to stop. The settlers dragged his son out of the car and assaulted him, that is when the father stepped out and rushed to help his son, but within seconds the settlers hurled a stone at his face, wounding him in the eye and face. (IMEMC 8 June 2022)
- Hordes of Jewish settlers escorted by police forces desecrated the Aqsa Mosque in Occupied Jerusalem morning and later in the afternoon. Dozens of settlers entered the Mosque in groups through its Maghariba Gate and toured its courtyards under police guard. During their tours at the Islamic holy site, the settlers received lectures from rabbis about the alleged temple mount and a number of them provocatively performed Talmudic prayers. Meanwhile, the Israeli occupation police imposed movement restrictions on Muslim worshipers at the Aqsa Mosque's entrances and gates. During the presence of settlers inside the Mosque compound, entry restrictions are imposed on Muslim worshipers at the entrances leading to the Mosque and their IDs could be seized until they leave the holy place. Home Demolition & Demolition threats

- Israeli soldiers invaded an apartment building in the Wad Qaddoum neighborhood in Silwan town, south of the Al-Aqsa Mosque in occupied Jerusalem, and measured an apartment building in preparation for

demolishing it. The soldiers, accompanied by personnel of the City Council in occupied Jerusalem, invaded the building before surveying it and taking measurements to determine the demolition method. The City Council issued the demolition order just a week earlier, and the army is now preparing to demolish it without granting the Palestinians sufficient time to file appeals. The building has twelve apartments inhabited by dozens of Palestinians, including children, elders, and people with special needs. Since the year 2004, the families in the building have been trying to obtain permits and paid excessive fines and fees amounting to about 900.000 Shekels. However, the City Council denied their applications. (IMEMC 8 June 2022)

- The Israeli occupation army (IOA) notified a number of Palestinian citizens in Masafer Yatta, south of al-Khalil, of its intent to demolish their homes and structures. The Israeli occupation forces (IOF) stormed at-Tabban hamlet in Masafer Yatta and handed the residents demolition orders against four homes, one cattle shed and eight wells used to collect water. The villagers were given 96 hours to evacuate the homes and structures, pointing out that four families, including children, would be rendered homeless if the demolition measures were carried out. (PALINFO 8 June 2022)
- The Israeli occupation army (IOA) handed a Palestinian woman in Zif village in southern Hebron a stop-work notice ordering her stop building a water well. Another citizen also received a stop-work notice ordering him to stop building a water well and an agricultural structure in the same village. (PALINFO 8 June 2022)
