The armed colonizers also brought a German Shepherd dog with them, which they used to try to attack the children. (IMEMC 7 NOVEMBER 2022)

Confiscation & Razing of lands

- Israeli settlers, illegally squatting on Palestinian lands, cut more than 45 Palestinian olive trees and destroyed a well, near Nablus, in the northern part of the occupied West Bank. The settlers invaded Palestinian olive orchards near the Yitzhar colony and cut more than 45 trees. The attack is not the first as the settlers frequently invade Palestinian farmlands and orchards, before cutting and uprooting trees, in addition to attacking the Palestinians and their homes. In related news, a group of settlers, also from Yitzhar, destroyed a Palestinian water well, used by the farmers in the Be'er an-Nabe' as-Sofly area Madama village, south of Nablus. The well was an essential source of water to the farmers, especially since Israel keeps cutting water supplies to ensure a constant flow of water to the illegal settlements. (IMEMC 7 NOVEMBER 2022)
