- Israeli Municipality of Jerusalem handed out demolition orders that targeted 10 Palestinian buildings; consist of about 30 apartments, in Habayil Al Arab area, north of Al Issawiya town in Jerusalem city. (Maannews 22 September 2016)

Expansion of settlements

- Israeli District Planning and Building Committee in Jerusalem Municipality approved for deposit a plan (TPS 111203) that would expand the settlement of [Ramot](#) north toward the Bir Nabala enclave enclosed by the Separation Barrier. The plan calls for construction of a school, kindergarten, synagogue and sports facilities on an area of 6.5 dunams. The parcel is adjacent to land designated for 201 housing units under TPS 192815 – approved for deposit in [August 2015](#) but not yet advanced – which would also expand the built-up area of Ramot north in the direction of Bir Nabala. (IR-Amim 22 September 2016)
- Gilo Building Permits on Tomorrow's Local Committee Agenda. Ir Amim is now able to confirm that approval of building permits for a total of 68 units in three buildings in the area of the Gilo Western Slopes plan is on tomorrow's Local Planning and Building Committee agenda. After tenders for 708 units under the Gilo Western Slopes plan (TPS 13157) were published but failed to attract bids, the minimum bid threshold was reduced in April 2014, the announcement of which is widely thought to have been the final straw in the Kerry led peace process. The ground has already been leveled in the area of the plan and infrastructure building is in progress; once building permits are secured, construction can be launched. In late July, Ir Amim reported the Israel Land Authority's announcement of 4 tenders in East Jerusalem, including a new tender for 89 housing units in Gilo. The tender was announced one week after the Gilo Southern Slopes reparcelization plan (TPS 175505) for 770 housing units – out of a larger plan for a total of 1,241 – was deposited for public objections. The Gilo Western Slopes and Gilo Southern Slopes plans were approved in 2012 for a total of 2,037 housing units that would expand the neighborhood westward in the direction of al-Wallajeh and southwest in the direction of Beit Jala. A third plan for the neighborhood, comprising 100 housing units next to the neighborhood of Beit Safafa, was also approved. Together, these three plans represent a potential increase of 23.5% in the number of housing units for approved plans in the neighborhood. The unchecked expansion of Gilo is one part of a coordinated series of developments along the southern perimeter of East Jerusalem, including burgeoning development in Har Homa; approval of Givat Hamatos; erection of a six-lane highway that serves as the final link in a continuous strip of roadway connecting the outlying settlement blocs of Gush Etzion and Givat Ze'ev to the city; and insulation of al-Wallajeh by the Separation Barrier and Emek Refamim National Park. Collectively, these trends amount to the near complete consolidation of Israeli control of the southern perimeter of

East Jerusalem, further dislocating East Jerusalem from the West Bank and eroding the viability of the two state solution. (Ir- Amim 22 September 2016)

Israeli Closures

- Israeli Occupation Army (IOA) closed Al Container military checkpoint, northeast of Bethlehem city. (RB2000 22 September 2016)

Other

- The Israeli Civil Administration submitted a building scheme in Al Quds Daily Newspaper for Public Review¹. The Regional Plan No. (125/12) in Elkana settlement, Mandate scheme 125/1/83 and S-15, parts of basin number 3 in Mas-ha village, northwest of Salfit city. The plan aims to change the status of land from agricultural and open areas to area used for the construction of public and educational buildings, and road network. (Al-Quds 22 September 2016)

¹ It is the last step before approving the building scheme, after which, building permits and tenders may be issued
