Israeli Violations' Activities in the oPt

2 November 2019

The daily report highlights the violations behind Israeli home demolitions and demolition threats in the occupied Palestinian territory, the confiscation and razing of lands, the uprooting and destruction of fruit trees, the expansion of settlements and erection of outposts, the brutality of the Israeli Occupation Army, the Israeli settlers violence against Palestinian civilians and properties, the erection of checkpoints, the construction of the Israeli segregation wall and the issuance of military orders for the various Israeli purposes.

The Violations are based on reports provided by field workers and/or news sources.

The text is not quoted directly from the sources but is edited for clarity.

The daily report does not necessarily reflect ARIJ's opinion.

This DAILY REPORT is prepared as part of the project entitled Advocating for a Sustainable and Viable Resolution of Israeli-Palestinian Conflict which is financially supported by the EU. However, the content of this presentation is the sole responsibility of ARIJ & LRC and does not necessarily reflect those of the donors.

Brutality of the Israeli Occupation Army

- The Israeli Occupation Army (IOA) invaded a Palestinian school in the al-'Isawiya town, in occupied East Jerusalem, and detained one child, in addition to causing many others to suffer the effects of teargas inhalation after throwing gas bombs into their school. Media sources said the soldiers abducted Saleh Tawil, in the al-'Isawiya Secondary School for Boys, and took him to an unknown destination. The IOA fired gas bombs, in addition to hurling gas grenades into the campus, causing many children to suffer the effects of teargas inhalation, the Wadi Hilweh Information Center in Silwan (Silwanic) has reported. On Friday evening, the soldiers detained a Palestinian groom and his bride, after stopping their car at the Container military roadblock, north of Bethlehem. The groom and his bride were detained at the roadblock for more than an hour, before the soldiers allowed them to leave. The army did not provide any reason for its soldiers' actions. (IMEMC 2 November 2019)
- One Palestinian was killed and three others were injured, in Khan Younis, in the southern part of the coastal region. The army also fired many missiles into several areas in the Gaza Strip, after alleging that "projectiles were fired from Gaza." The killed Palestinian was identified as Ahmad Mohammad Shahri, 27. Three other Palestinians were injured. Very minor damage was reported in a wall of one home, while the windshields of a few cars were shattered. The army fired many missiles into thirteen sites across the coastal region, causing serious property damage to several buildings and homes. (IMEMC 2 November 2019)

Israeli Arrests

- The Israeli Occupation Army (IOA) invaded a Palestinian school in the al-'Isawiya town, in occupied East Jerusalem, and detained one child, in

addition to causing many others to suffer the effects of teargas inhalation after throwing gas bombs into their school. The IOA detained Saleh Tawil, in the al-'Isawiya Secondary School for Boys, and took him to an unknown destination. The IOA fired gas bombs, in addition to hurling gas grenades into the campus, causing many children to suffer the effects of teargas inhalation. (MEMC 2 November 2019)

- The Israeli Occupation Army (IOA) detained a Palestinian groom and his bride, after stopping their car at the Container military roadblock, north of Bethlehem. The groom and his bride were detained at the roadblock for more than an hour, before the IOA allowed them to leave. The army did not provide any reason for its actions. (MEMC 2 November 2019)

Israeli Settler Violence

- Israeli settlers attacked in the morning hours a Palestinian family in the town of Dura in the south of the West Bank and beat its members despite the presence of the Israeli Occupation Army (IOA) in the area. Settlers broke into a land west of Dura, located near Negohout settlement, forcing the landowners to defend their land. The settlers attacked the family and got into a fist fight with its members. The Israeli Occupation Army (IOA) in the area intervened on behalf of the settlers and fired teargas at the Palestinians causing suffocation cases among them who required treatment. (Wafa 2 November 2019)

Israeli Military Orders

- The Israeli occupation authorities (IOA) ordered the confiscation of 500 dunums of Palestinian land in the village of Hizma, east of Jerusalem. The Israeli army handed the Palestinian Civil Liaison a notification regarding Israel's intention to size 500 dunums of land which belong to Palestinians from Hizma, with a view of expanding the illegal Israeli settlement of Adam, nearby. (Wafa 2 November 2019)

- The Israeli occupation authorities (IOA) ordered the confiscation of 124 dunums in the villages of Majdal Bani Fadel and Duma, to the south of Nablus in the occupied West Bank. The Israeli military handed Palestinians from Majdal Bani Fadel and Duma an order showing the land that is to be confiscated for military purposes. (Wafa 2 November 2019)
- The Israeli Occupation authorities (Authorities) notified the municipality of the town of Yabad, southwest of Jenin in the West Bank, of their plan to confiscate around 409 dunums of land for the purpose of continuing the construction of the West Bank separation barrier where barbed-wire fences have been placed for the past 15 years along the village and towns to the west of Yabad, for the benefit of expanding the separation wall. (Wafa 2 November 2019)

Expansion of settlements

- Israel to establish waste-to-energy plant in settlement of Ma'ale Adumim, unlawfully exploiting Palestinian territory for its own needs In October 2019, the Israeli government issued a tender for the establishment of its first waste-to-energy plant, at an estimated cost of 1 billion NIS (about 284 million USD). If established, the plant will be built without taking the Palestinian population of the West Bank and its views on the matter into account. The site for the plant lies between East Jerusalem and the Dead Sea, some 700 meters east of the Mishor Adumim industrial park near the Good Samaritan site and within the municipal jurisdiction of the settlement of Ma'ale Adumim. Israel expropriated this land back in 1975. The project is the initiative of the Ma'ale Adummim Planning and Development Corporation. Indeed, the Ministry of Environmental Protection has included the facility in its 2030 strategic plan for the treatment of urban waste. The plant is set to open in 2025 and to serve Israeli authorities within the metropolitan area of Jerusalem. It is expected to reduce the transfer of waste to landfills – the most common form of waste treatment in Israel and in the West Bank – as well as increase waste recycling by 2.5 and transform some 25% into energy. According to the plans, the plant will span some five hectares and treat enormous quantities ranging from 1,000 to 1,500 tons of waste a day – including domestic waste, electronic waste and polluted soil. It will contain a sorting facility that can process about 2,000 tons a day. Waste that is found unsuitable for incineration will be sent on to recycling or to a

landfill. According to the Ma'ale Adumim municipality, the plant will service local authorities that consist of some 1 million people, including Palestinian authorities, within a 40-km range. The specific authorities have not yet been named, other than the city of Jerusalem and the settlement of Ma'ale Adumim. (IMEMC 2 November 2019)
