Violations of the Israeli occupation Army

- Israeli forces repressed, two non-violent demonstrations in the northern occupied West Bank towns of Beita and Beit Dajan, injuring dozens, according to medical sources. In Beita, southeast of Nablus, seven people were injured with rubber-coated steel rounds and stun grenades, fired at them by Israeli soldiers, including one international activist, while thirty people suffocated from teargas inhalation. (IMEMC 29 October 2021)
- In Beit Dajan, southeast of Nablus city, Israeli forces attacked a peaceful demonstration, causing at least twenty Palestinian civilians to suffer the effects of teargas inhalation. (IMEMC 29 October 2021)
- Israeli soldiers invaded, many areas in the Jenin governorate, in the northern part of the occupied West Bank, leading to protests. Several army jeeps invaded Muthallash ash-Shuhada town, south of Jenin, before storming and ransacking homes. The invasion led to protests before the soldiers fired a few live rounds, rubber-coated steel bullets, and gas bombs. The soldiers also invaded Qabatia town, south of Jenin, before searching various hills and a meadow, while firing flares, in addition to invading and searching homes, leading to protests. During the invasion of mountain areas in Qabatia, the soldiers dug and bulldozed lands. In related news, the soldiers abducted Mohammad As'ad Bani Gharra, from the Jenin refugee camp, while working in Jerusalem. (IMEMC 29 October 2021)
- Israeli soldiers injured many Palestinians in Beit Ummar town, north of the southern West Bank city of Hebron. Several Israeli army jeeps invaded the ath-Thaher area in Beit Ummar, leading to protests. The soldiers fired many gas bombs and concussion grenades, causing dozens of residents to suffer the effects of tear gas inhalation. The invaded area is not far from the illegal Karmie Tzur colony which was built on stolen Palestinian lands. It is worth mentioning that the soldiers frequently invade Beit Ummar and the surrounding communities, and repeatedly attack farmers and shepherds who are also subject to constant violations by the illegal Israeli colonizers. (IMEMC 29 October 2021)

- Israeli forces invaded the al-Yamun village west of Jenin, in the northern part of the West Bank. The troops shot a young man in the shoulder near the Israeli Annexation Wall. The Palestinian worker has been identified as Muhanad Hushiya. He suffered a bullet injury in his shoulder as he was returning home from work on the Israeli side of the Annexation Wall. Muhanad was injured with a bullet wound in his shoulder. No information was available about his condition. The shooting attack comes less than a month after Israeli forces shot and killed [Ala' Nasser Zayyoud](#), 21, in Burqin town, west of the northern West Bank city of Jenin. The incident took place when a large Israeli military force, including undercover soldiers, invaded Burqin, leading to protests, and an exchange of fire between the army and armed resistance fighters. A large military force also invaded an area, between the towns of al-Yamoun and Burqin towns, before surrounding a home. Ala' ran towards the area of the invasion carrying his weapon, but did not know the soldiers were deployed around the corner and came face to face with them when they shot him with several live rounds, and even fired several rounds at him after he dropped onto the ground.(IMEMC 29 October 2021)
- Dozens of Palestinians were injured as clashes broke out when Israeli occupation forces (IOF) stormed the town of Beit Ummar, north of al-Khalil. Israeli forces heavily fired teargas bombs at local residents, injuring many of them. Similar clashes broke out in Husan village, west of Bethlehem, amid heavy use of live ammunition. At least a young man was hospitalized after being shot and injured with a live bullet in his hand. Meanwhile two minors, aged 14 and 17, were detained by the IOF during the clashes, while a number of local homes were stormed and searched. The Israeli occupation army often carries out detention raids against Palestinians in the West Bank and Jerusalem, claiming to arrest wanted Palestinians. (PALINFO 29 October 2021)
- At least two Palestinians were injured by rubber bullets while dozens others suffered from teargas inhalation as Israeli occupation forces (IOF) suppressed the weekly anti-occupation rally in Kafr Qaddum, east of Qalqilya. Violent clashes broke out after Friday prayers when IOF forces heavily fired teargas bombs and rubber bullets at the peaceful protesters. (PALINFO 29 October 2021)

Israeli Settler Violence

- Israeli colonizers installed, an outpost on Palestinian lands near Yatta town, south of Hebron, in the southern part of the occupied West Bank. The colonizers installed at least three mobile homes on the Palestinian lands and added that Israeli soldiers also accompanied them. The new outpost was installed not far from the illegal Susya colony which was installed on stolen Palestinian lands. The colonizers and the soldiers are ongoing with the illegal takeover of Palestinian lands, in addition to the repeated attacks on the farmlands, including uprooting and burning them, in addition to the violations against the shepherds. (IMEMC 29 October 2021)

Israeli Closures

- The Israeli authorities closed several streets in Occupied Jerusalem, restricting Palestinian movement. The Israeli restrictions came in preparation for the annual Jerusalem marathon held today between the hours of 6:00 A.M. and 2:00 P.M. The participants raised Israeli flags while running near Palestinian neighborhoods in total provocation to local residents. The Palestinian activist Muhammad Abu Al-Homs said that the Israeli marathon is a Judaization political event, and not just a sport event. The Israeli municipality seeks to promote the occupied city of Jerusalem as a Jewish city as part of its Judaization policies, he said. It aims, he further added, to wipe out the city's Arab and Islamic identity. For his part, head of the Jerusalem Anti-Judaization Committee Nasser Al-Hedmi described the event as an Israeli Judaization project. He also warned of its serious implications as it allows Jewish extremists' break-ins into Palestinian neighborhoods and towns, while Palestinian movement is totally restricted. The West Bank, including Occupied Jerusalem, is regarded as "occupied territory" under international law, making all Jewish settlers' presence illegal. (PALINFO 29 October 2021)
